Mc Cormick Vertical Lift Mower

Thrown Out of Gear Automatically When the Cutter Bar Is Raised. A Great Advanta tage on Rough or Stumpy Ground

The McCormick vertical lift mower has been designed for cutting on rough and stumpy ground, where a regular lift mower could not be used to good 'advantage. This mower is a practical machine for all kinds of grass cutting. The cutter bar can be raised to a vertical position and lowered without stopping the team. When the bar is raised, the machine is thrown out of gear automatically. This feature permits the driver to cut close to a tree, stump or rock, and save all the hay without loss of time of other indonvienience

The McCormick vertical lift mower will cut grass successfully in any place where the machine can be drawn by horses, and it will do good work under conditions where an ordinary machine could not be used.

McCormick mowers require fewest repairs and will give longest life of satisfactory.

EDUCATE FOR LIFE

Marshall delivered the principal address here today at the University of Maine commencement exercises. dwelt upon the need of education for the young men taking up the business life. The Vice-President said in

the young man to assume the man-agement of life's affairs. In the ir-repressible conflict between labor and capital, he cannot assume that either in America or an oligarchy of wealth.

Complete knowledge may convince
him that it will be better for the Republic to be controlled by neither of these classes.
"In 1850, we had a Republic where

abor was satisfied, where respect for religion and reverence for law and order and a sincere attachment to the order and a sincere attachment to the Constitution were strong. In that year the proportion of the annual wealth created in the country by the joint efforts of labor and capital was one-fourth to labor and three-courths to capital. Sixty years later, the proportion had changed to less than one-fifth to labor and more than four-fifths to capital.

This proportion, to my mind had

This proportion, to my mind, had much to do with our present discon-

much to do with our present discontent.

"Usurlous interest is no more usurious profit has taken its place. When our statutes regulating the rates of interest were enacted, the laboring man, generally speaking, was a skilled laborer. He could produce a completed article. The advent of machinery took from him his tools and put them in the hands of capital. Money no longer is borrowed by laborers to enable them to carry on their trades, but money is crafty and instead of loaning itself to the laboring man, it is now buying the laboring man's machinery, constantly embracing its own profit, thereby constantly decreasing the laborer's share of our produced wealth. The young man in assuming leadership must create a public opinion and develop a moral sentiment against usurious profit and interest.

interest.
"Evidence of a disposition on the part of corporate wealth to accept this view is not lacking. I dare the prediction that the railroads of the country would welcome permanent five per cent accumulative profit in exchange for their greater profit and the doubt, risk and abuse which come

his bond and mortgage for the pur-chase money. Of this bond and mort-gage Mrs. Calhoun willed three-fourths

to her daughter, Mrs. Thos. G. Clem-son, and one-fourth to Mrs. Clemson's

daughter, Miss Firride, who subsequently married Mr. Gideon Lee of

New York. The mortgage of Col. A. P. Calhoun was foreclosed and Mrs.

Clemson bought in Fort Hill, and di-vided it with her daughter, Mrs. Lee,

vided it with her daughter, Mrs. Lee, in proportion to the interest of each under Mrs. Calhoun's will. In 1871 Mrs. Floride Lee died, leaving one child, a daughter. Only seventeen days after Mrs. Lee's death, John Collision of two trains on the Blue Clemson was killed near Seneca by a Ridge Railroad. The loss of their only two children was a terrible shock to Mr. and Mrs. Clemson. Desolato they mourned the loss of all the brightness out of their lives; but unsearchable are the providences of God, for it was then that these two strick-

How faithfully he redeemed his promise to his dear wife, let Clemson College as it stands today in all its maginifeence speak. Mr. Clemson well knew that the property donated for the purpose would not be sufficient to build and maintain such a college as he con-ceived of, but having a firm reliance upon the liberality of the state of South Caroling, he felt assured that when the necessities of the people, growing out of their changed condigrowing out of their changed condi-tions resulting from the effects of war, were properly understood and appreciated, his efforts to benefit the farmers would be recognized; and that the state would supplement his dona-tion by whatever amount might be necessary to establish the dream of his life. He reasoned wisely and cor-rective rectly

Very early in life Mr. Clemson developed a great taste for the study of the sciences, especially chemistry, minerology and geology. ### AIRMEN DROWN IN SEA PLANE

Two Officers of the English Navy Went Down To a Watery Grave

Portsmouth, England, June

Commander Rice and Lieutenant Thomas S. Creswell were drowned to-day when a sea-plane in which they were flying plunged into the sea. The sea-plane was engaged with other aircraft in manoeuvers. A terpedo boat crossed Creswell's body which was strapped to the fly-ing machine seat, but the body of Com-mander Pice was not found.

The sca-plane was one of the larges in the service. It had a wing span of 63 feet, carried a 200 horse power engine and was equipped with wireless. It is believed the accident was due to an explosion cause by the ignition of escaping petrol fumes by a spark from
